

POPULATION FLOW

Title page

Population flow

- 1.) The grey boxes in the first row of the population flow represent the original data sets as they were when you downloaded them. In the Total fields you need to add the count of the rows when you imported the data set into Jupyter.
- 2.) The second row of boxes (coloured) represents the data sets **after** you manipulated them, e.g., removed missing values and duplicates. In the Total fields you need to add the count of the rows after conducting these operations. This offers a visual overview of how the data *flows* throughout the data consistency checks.
- 3.) The third row, where also the arrows are coloured, represents the merges you performed between the datasets. In the Total fields you need to add the count of the rows in the merged
